- The vehicle should be assembled by adult before use. It will take 30 minutes to complete.
- The small parts might cause choke, please keep away from the children.
- Please check the number of the parts before assembling, and keep the packaging bags away from the children in case of choke.

1. Install the front fork assembly

First, remove the parts from the front fork assembly and insert the handle on the other side. The front fender is inserted into the front fork. Fasten the fork to the head with four screws.

2. installation of front wheel

Pass the front axle through the gasket, front fork pipe, gasket, front wheel, gasket, front fork pipe and gasket from left to right. Install nuts at each end of the front shaft and tighten them with two wrenches.

3. Install windshield

Insert the three legs of the windshield into the corresponding plastic bayonet of the dashboard until it doesn't fall off easily.

4. Front wheel assembly

First connect the joint of the light line, and insert the corresponding position of the front wheel assembly into the valve body, twist the front fork from top to bottom with a wrench, tighten the valve body, the front fork and the nut with the same diameter.

5. Rear wheel mounting

Install the gearbox under the right side of the body, hold the embossed rear axle, insert the gasket, the body, the gearbox, the rear wheel, the gasket from left to right, then insert the gasket, the rear wheel, the gasket from left to right, then lock the rear axle of the nut and finally buckle the wheel lid at the end.

6. Connect the power

As showed in the picture,connect the power plug-in with the right direction (red to red,black to black)

7. The installation of the toolbox

Position the cover of the toolbox at the bottom of the trunk seat behind the seat and fasten the two front buckles on the bottom of the trunk seat.

8. Rear tail light installation

As shown in the figure, use tapping screw to fix the taillight to the corresponding hole in the rear of the vehicle.

9. Installation of mirror

Place the left and right mirror in the corresponding holes in the front fork until they do not fall off easily.
