

## Inflation method:

### Accessories:

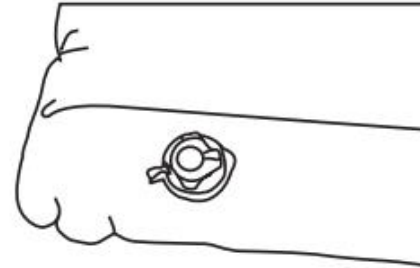

Cloth bag \* 1, air cushion and patch \*1

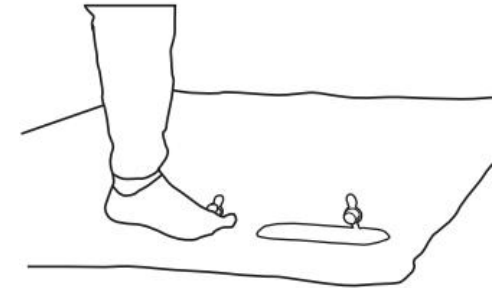

1. Flatten the cushion after opening it.

2. Close the butterfly valve.

3. Squeeze the mouth of the air nozzle with your palm or sole repeatedly to make the cushion full of gas.

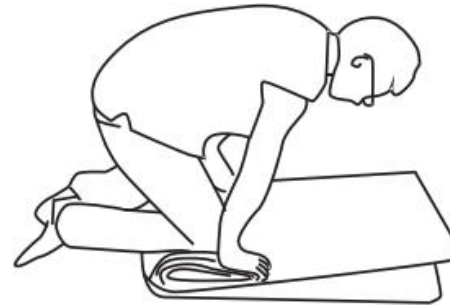

## Exhaust method:

1. Open the butterfly valve.

2. Vent the air inside the cushion and roll it up.

3. Put it in the packaging bag.
