The life of your basketball system depends on many variables. The climate, exposure to corrosives such as salt, pesticides or herbicides and excessive use or misuse can all contribute to pole failure, which may cause property damage or personal injury.

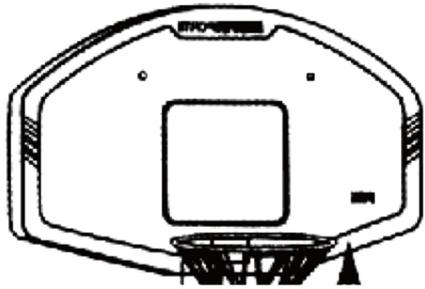

Check your basketball system frequently for loose hardware, excessive wear and signs of corrosion. For safety reasons and to prolong the life of your basketball system, you must take the following preventive measures:

- a. Check all nuts and bolts. If any are loose, tighten them.
- b. Check all parts for excessive wear and tear. If necessary, replace any parts that have been worn or damaged through usage. Contact our customer service department for replacement parts.

 1. Use an emery cloth to completely remove any rust or chipped paint.
 2. Clean the area with a damp cloth and allow it to dry.
 3. Apply two coats of a rust preventative, high gloss enamel to the area. Allow the paint to dry between two coats.

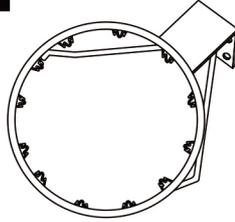

Important! It is not recommended to use the system outdoors in freezing / subzero conditions.

■ **ENTRETIEN DES POTEAUX ET MAINTENANCE DU SYSTÈME :**

La durée de vie de votre système de basket-ball dépend de nombreuses variables. Le climat, l'exposition à des produits corrosifs tels que le sel, les pesticides ou les herbicides et l'utilisation excessive ou abusive peuvent tous contribuer à la défaillance des poteaux, ce qui peut provoquer des dommages matériels ou des blessures.

Vérifiez fréquemment votre système de basket-ball afin de détecter tout matériel desserré, toute usure excessive et tout signe de corrosion. Pour des raisons de sécurité et pour prolonger la durée de vie de votre système de basket, vous devez prendre les mesures préventives suivantes :

a. Vérifiez tous les écrous et boulons. Si certains sont desserrés, serrez-les.

b. Vérifiez que toutes les pièces ne présentent pas d'usure excessive. Si nécessaire, remplacez toutes les pièces usées ou endommagées par l'utilisation. Contactez notre service clientèle pour obtenir des pièces de rechange.

c. Inspectez l'autocollant d'avertissement sur le poteau. Si s'il est déchiré, décoloré ou illisible, appelez notre service clientèle pour demander un autocollant de remplacement.

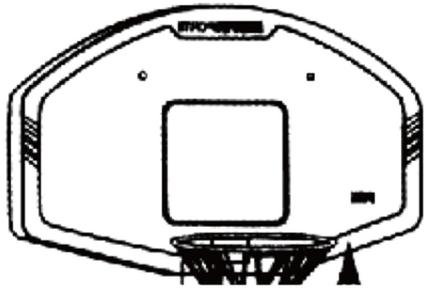

d. Vérifiez que toutes les sections du poteau ne présentent pas de rouille visible, d'écaillures ou de fissures de peinture :

1. Utilisez une toile émeri pour enlever complètement la rouille ou la peinture écaillée.

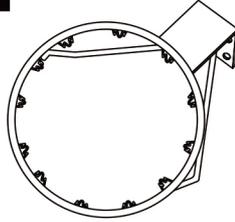

2. Nettoyez la zone avec un chiffon humide et laissez-la sécher.

3. Appliquez deux couches d'un émail brillant antirouille sur la zone. Laissez la peinture sécher entre les deux couches.
