To insure that there is over 50kgs board press on the steel base seat.

It is not to be used during periods of strong wind , rain, hail, or snow. In case of such conditions, retract the awning immediately.

Once the adjustment screw reaches its end position you may not turn it further. Do not force it! Disobeying this instruction can lead to damage on the awning that can cause hazard and void the warranty!

The awnings are intended as a protection against the sun only. It is not to be used during periods of strong wind, rain, hail, or snow. In case of such conditions, retract the awning immediately.

Never allow children to play with the awning.

Be sure the fabric is tensioned. If the fabric is not tensioned during extension, please turn counter-clockwise until the fabric is tensioned.

Do not put any objects or parts of your body e. g. hands, in the awning while extending and retracting. Hazard of crush!

When the front bar touches the roller as shown in following figure during retraction, don't try to make them closer, otherwise the product might be damaged.

Take out the crank handle from loop after adjusting the awning as you wish and put it on a place that is not reachable for children to avoid that they play with the awning.

Maintenance

Regular maintenance will not only help to keep a long durability but is also important for your own and the safety of other people.

- ♦ Examine regularly if wall brackets are tight, fasten them if loose or lax.
- ♦ Examine the gear box once in half a year. If you find any damages stop using the awning until gear box has been repaired or renewed.
- ♦ Examine the bolts and nuts once in half a year, fasten them if loose or lax.
- ♦ Stop using the awning immediately if it has been damaged or it is not tighten properly.
