

WARNING:

GLASS - FRAGILE - HANDLE WITH CARE

- We strongly recommend a professional experienced in fixing this type of hanging is consulted.
- Ensure your mounting surface & method of fixing is strong enough to support this item.
- As mounting surfaces vary ensure adequate fixings are used.
- An incorrectly fixed mirror may cause damage to the item or your property.
- Mirrors are heavy objects and your safety is dependent on the construction & strength of the wall to which it is attached.
- Prior to drilling check there are no hidden pipes or electric cables!
- Only hang by means of a suitable permanent fixing on a firm, flat, level and dry surface.
- Special fixings may be required for partition walls. If in doubt seek professional advice.
- CAUTION: this item may be heavy. Seek assistance if necessary
- Do not strike the glass with hard or pointed items
- Do not use wire between the two fixing brackets on the frame - only hang by screwing a permanent screw into a secure wall.
- Caution - Check the strength of the wall, on which the mirror is to be positioned.
- Special raw plugs/ screws maybe required if fitting onto a partition wall.

CARE INSTRUCTIONS:

Wipe clean with a soft, damp cloth and dry immediately. Do not use harsh or abrasive cleaners or scouring pads.
